

Lab00. Introduction

Presenter: YU-HSIANG WANG

Date: 2025/09/03

Outline

- Syllabus
- Introduction of Each Lab
- Course Rule
- U18 Process Application Form
- Enrollment Request Form

Syllabus

- **Professor of this course**
 - **Chen-Yi, Lee** (Office: ED538 / Tel: 03-5731849 / Mail: cylee@nycu.edu.tw)
- **TA List**

Name	Email	Lab
王鈺翔	david998869@gmail.com	Mid-project, Final-project
張祐榛	james1216.ee13@nycu.edu.tw	Lab01、OT
李崇碩	damien1234568@gmail.com	Lab04、13
陳致佑	nicholas9237@gmail.com	Lab06、12
王英育	inyiyywang.ee12@nycu.edu.tw	Lab02、08
蕭邦原	xuan95732.ee13@nycu.edu.tw	Lab05、11
涂爾邑	erhyitu@gmail.com	Lab09、10
郭朝恩	daniel970275.ii13@nycu.edu.tw	Lab03、07

Discord QR code

<https://discord.gg/HSqD5PX6QM>

- **Only contact TAs for private reasons**
 - Do **NOT** contact TAs through messenger
- **Please remember to give the senior TA a copy every time you ask the corresponding TA questions**
- **For general questions, please ask on **Discord****

Syllabus

- **Time:**
 - Lecture: W56 (13:30~15:30, Wednesday) @ ED415&Webex
 - Code Review: WAB(18:30~19:30, Wednesday) @ ED415
- **Prerequisites:**
 - Introduction to VLSI, Logic Design, Digital System Design

- **Grading Policy:**

Weekly Lab Exercise x 12	60%
Midterm Project	8%
Midterm Exam	8%
Online Test	5%
Final Project	8%
Final Exam	8%
Bonus (Formal verification & ADFP Lab/Lecture & Coding style)	3+?%
Total	100 + ?

Syllabus

- Course Schedule (1/2):

W	Date	Content	TA	Difficulty
1	09/03	Lab00. Intro	王鈺翔	
2	09/10	Lab01. Combinational	張祐榛	★
3	09/17	Lab02. Sequential	王英育	★★
4	09/24	Lab03. Pattern	郭朝恩	★★★★
5	10/01	Lab04. Pipe & IP	李崇碩	★★★★
6	10/08	Lab05. Memory	蕭邦原	★★★★★
7	10/15	Lab06. DC & IP Design	陳致佑	★★
		Midterm Project	王鈺翔	★★★★★
8	10/24(Fri.)	Midterm Exam & OT	張祐榛	★★

Syllabus

- Course Schedule (2/2):

W	Date	Content	TA	Difficulty
9	10/29	Lab07. STA & CDC	郭朝恩	★★★★
10	11/05	Lab08. Low Power	王英育	★★
11	11/12	Lab09. System Verilog I	涂爾邑	★★
12	11/19	Lab10. System Verilog II	涂爾邑	★★
13	11/26	Lab11. APR I	蕭邦原	★
14	12/03	Lab12. IR Drop	陳致佑	★★
15	12/10	Lab13. Formal Verification	李崇碩	★
		Final Project	王鈺翔	★★★★
16	12/17	Final Exam		

Introduction of Each Lab

Course Rules

- **Lab Exercise Demo:**
 - Lab Grading Criteria: Functionality (70%) + Performance (30%) (subject to specific Lab rules)
 - **Functionality (1st demo and 2nd demo):**
 - Each demo will result in either a “Pass” or “Fail”
 - Passing the 1st demo earns the full Functionality score
 - Passing the **2nd demo** results in a **30% off** of the total score
 - **Performance:**
 - An additional 30 points will be awarded based on **Area, Timing, and Power**, with rankings determined by each Lab’s specific rules
 - Only students who pass Functionality can enter the performance evaluation

Course Rules

- **Demo Schedule:**
 - 1st demo: Every Monday (Submission deadline: Monday before 12:00 noon)
 - 2nd demo: Every Wednesday (Submission deadline: Wednesday before 12:00 noon)
 - Always **submit on the server** unless otherwise specified
 - On the night of the 1st demo, the TA's test patterns will be released
 - Each demo session allows **only one attempt to demo** (infinite time for submission before the deadline). Modifications after testing are not permitted unless the issue is due to the test pattern
 - After the 1st demo, a list of students who passed will be announced
 - After the 2nd demo, both Performance results and final grades will be released

Course Rules

- **3rd Demo:**
 - Everyone has the chance for 3rd demo **at the end of the semester**
 - The score for that Exercise will be **40 points**
 - Encourage everyone to finish all the lab
- **Plagiarism Policy:**
 - TAs will use software tools to compare codes for similarity
 - If plagiarism is detected (**either copying or being copied**) → **The exercise will receive 0 points**
- **Additional Notes:**
 - Students with outstanding performance in both functionality and coding style may be selected to **share their code with classmates**
 - If they agree to explain their code in class, they **can receive +1 bonus point** for the semester (maximum twice per semester per student)

U18 Technology Application Form

- U18 / ADFP are used in this semester
- **Apply to TSRI membership first, then choose Chen-Yi, Lee (李鎮宜教授) as an advisor**
- **Submit your enrollment certificate (在學證明) to the box outside ED430 before 09/08**
- **If not completed within the time, then**
 - No account to use
 - Will be withdraw

U18 Process Application Form

- **TSRI membership**
 - [Link: TSRI單一登入](#)

設定身份別資料

*服務單位：

學校(學生)

*目前就讀學校：

國立陽明交通大學-交大校區Chiao Tung Campus

*系所：(若查無系所，請來信至 cscop@tsri.narl.org.tw)

電子工程系(所)

*學位：

請選擇

指導教授：

李鎮宜 / 國立陽明交通大學 / 電子工程系(所)

研究領域：

*論文名稱 / 專題研究名稱：

IC Design

Enrollment Request Form

- **Priority for Course adding**
 - **Institute of Electronics** → 2. Department of EE → 3. Related Departments
 - Other Departments (Based on Research Relevance)
 - Other Universities (Based on Research Relevance)
- **Relevant Courses:**
 - Logic Design, Digital Circuits and Systems, VLSI, Digital Integrated Circuits
- **Course Adding Request Process:**
 - **Fill out the course add request Google form (closes on 09/05 at 12:00 noon)**
 - If your request is approved, you will receive an email notification on 09/08 with these slides so you can get every information (no need to submit a paper add request form)
 - If your request is not approved, don't worry—you can enroll in the course next semester.

Any questions ... ?

Thank you
for
listening!

TA List

- Only contact TAs for private reason (do NOT contact TA with the E3 system)
- Use “Discord” to ask question
